SUCCESS COACHES
Our Success Coaches work alongside you to increase motivation, employability and provide an in-depth understanding of your natural talents.

As a new student, you’ll be assigned a committed Success Coach during your first term to help you become familiar with the expectations of studying at a university.

You will be encouraged to take the Gallup StrengthsQuest survey to unlock your natural talents and transform them into strengths. Success Coaches leverage a strengths-based approach to connect your learning experiences at BMIHMS to your goals and ambitions. As you progress through your studies, your coach will ensure you always remain on the right pathway to excel in your chosen career.

INDUSTRY PLACEMENTS (IP)
Industry experience is a key part of our courses and must be completed in order to fulfill your degree requirements.

As part of your Bachelor of Business Degree, you’ll undertake two Industry Placements for six months each.

If you’re studying for your Master of International Hotel Management you will undertake one unit in a workplace environment for six months.

During your Industry Placements, you will reinforce and extend the knowledge and skills you learn on campus by working in a real operational environment. Industry experience is an invaluable opportunity to network with peers and meet potential employers, while you add solid employment history to your CV.

The experience you gain during your placements will also help you define your career preferences and future pathways. Our students complete the industry placement component in a variety of exciting locations.

CAREERS CONNECT
Students have access to Torrens University’s very own Career Services Management system – Careers Connect. Linking future hospitality professionals with industry leaders, Careers Connect allows students to set career goals and search for Industry Placement and graduate opportunities. In addition, students can book appointments with their allocated Success Coach, upload resumes and cover letters for feedback, RSVP to professional development workshops, networking events and on-campus recruitment days.

RECRUITMENT EXPOS
As a student, you will have the opportunity to attend two on-campus recruitment expos each year - one at Leura Campus and the other at Sydney Campus. Recruiters from our ten Graduate Privileged Partners meet with students, discussing possible job opportunities with their brands. Selected students are then invited for one-on-one interviews. Many students find industry placement roles at these expos, as well as graduate positions. Melbourne Campus students also have regular visits from recruiters in the industry, including our Graduate Privileged Partners.

ALUMNI MENTORING PROGRAM
The BMIHMS Alumni Mentoring Program was developed to increase the employability of our graduates - by empowering them to enhance their business skills through the development of their own business network on graduation. This program was designed to serve both undergraduate and postgraduate final-year students in preparation for their transition to the workforce.

LEADERSHIP SPEAKER SERIES (LSS)
Our Leadership Speaker Series (LSS) creates panel discussions for BMIHMS students to learn and engage with senior managers at the forefront of the hospitality industry. Hospitality professionals discuss current trends within the sector, while providing an open Q&A forum, giving students the chance to gain greater insight into possible future career paths from those leading the field.

Previous lead panellists have included hotel general managers from leading hotel chains, restaurateurs and boutique hoteliers, and leading travel industry consultants.

YOUR CAREER NOW AND BEYOND GRADUATION

BMIHMS doesn’t just provide students with an education. We also give you a pathway to a successful working life. The opportunities available to you the networks you create while studying with us are designed to last a lifetime.

Completing my Industry Placements at two different brands - a resort and five-star hotel has been so beneficial. Not only have I been able to experience the key differences between the two brands and varied guest experiences offered, but I have been able to grow both personally and professionally. Completing my first placement in food and beverage, and my second in front office was great. I have been able to gain six-months work experience in each department and have a really in-depth understanding of both operations. This has really helped me identify the types of roles I might like to apply for when I graduate.

Ben Everingham | Australian Student
Bachelor of Business - International Hotel & Resort Management
“The Success Coaches have introduced me to so many people working in the industry, through volunteering opportunities, workshops and on-campus recruitment expos. This has been a great opportunity to get to know recruiters and leaders in the industry. I love how there are always guest speakers who come to campus. I have the opportunity to meet with leader from the industry, forming connections and building my network.”

Our Graduate Privileged Partners (GPP) is a competitive recruitment program designed to connect our highest achieving final year students with a select group of industry partners. It provides a unique opportunity for the hospitality industry to recruit our top graduates.

With strict criteria for academic performance, practical skills training and industry experience, successful candidates are selected and recommended to industry partners for their suitability for corporate management traineeship programs upon graduation.

This enables an in-depth relationship between students and potential employers, far beyond the normal interview process. It results in greater certainty for both parties about commitment and quality.

HERE FOR GOOD

Here for Good is the spirit of Laureate International Universities. As the largest global network of higher education institutions we are united by a belief in the power of education to change lives. We believe society is best served when our students and staff use our collective skills and experience to create positive and lasting change.

Laureate is a mission-driven company. We believe in the power of education to transform lives and make enduring commitments to the communities we serve through the philosophy of being Here for Good. Laureate is a Public Benefit Corporation and is required by law to create a general public benefit through a material and positive impact on society. As the largest B Corp in the world, Laureate has undergone rigorous assessment to meet the highest standards of overall social and environmental performance, public transparency and legal accountability.

SALA BAI HOTEL SCHOOL

The principal charity for BMIHMS is Sala Bai Hotel School in Cambodia.

On a global scale, BMIHMS students have been raising funds for Sala Bai Hotel School, Cambodia, since 2004. Sala Bai was created to address low school attendance among the population, and in particular the huge drop-out rate of young girls leaving school to help at home, work or get married. By educating young Cambodians, they are given the means to support themselves. Students are trained in hospitality and are assisted in finding work upon graduation.

Since 2002 the School has trained and graduated more than 1100 students who have found employment and economic independence to improve the living conditions of their families. We hold regular fundraising events to support Sala Bai and our lecturers visit the school to donate their time and expertise. Since 2004, we have raised more than $200,000 for Sala Bai enabling them to build a new campus.

We believe society is best served when our students and staff use our collective skills and experience to create positive and lasting change.
GLOBAL CAREER OPPORTUNITIES

Work and network all over the world. While studying at BMIHMS, students will interact with many of the university alumni through their academic studies.
